## Learn about this template

*UML class diagrams map out the structure of a particular system by modeling its classes, attributes, operations, and relationships between objects.*

*To customize this template:*

- Click on any shape and type the information you would like to include.
- Add and arrange class shapes as needed.
- Update cardinality.
  - Click on a line and navigate to the properties bar to adjust the endpoints.
  - Click on a line and hover over the gear icon to add multiplicities.
  - Add additional lines by hovering over a shape and clicking the red dot
